Scenario:

You are a registration agent working for the BC emergency services. Your job is to take calls from groups of evacuees, and connect them with accommodations in unaffected regions to keep them safe during an emergency situation (e.x. A fire or flood in their region).

You will be registering groups once given their information and connecting them to bookings at an existing accommodation.

In addition, you may be notified about openings at new accommodations, and so may need to put that information into the system.

Tasks:

- ☐ Register a new account
- ☐ Explore the login page
- ☐ Search for an Accommodation that can house 5 people
- ☐ Create new Accommodation
- ☐ Edit an Accommodation to add more capacity
- ☐ Delete an Accommodation with no bookings
- ☐ Create new Group as directed via following scenario:
    - I'm Gabe Phillip
    - I have a wife Claire and dog named Snoopy.
    - My phone number is 250 938 1234
- ☐ Edit the group to add Gabe's Sister, Sophie
- ☐ Create new booking
- ☐ Edit an existing booking
- ☐ Delete a booking
- ☐ Find an existing group that has only two people
- ☐ Delete the group with the highest number of members
- ☐ End your session and sign off for the day
- ☐ Re-login using credentials ⇒ agent1@gems.com : password
